*"Thank you for making my life so meaningful. I am close to my Dreams and I am going to be a doctor soon"
says Ch.Suneetha*

Your generous donations to HealthFirst India (an initiative of Swiss Emmaus Leprosy relief Work India) has made a difference to the lives of many children. Your support facilitates medical and social rehabilitation of people affected by leprosy.

We would like to share one of our success stories of Suneetha, a young girl whose life has changed because of you!

Suneetha, 15 years old, lives with her mother Mrs. Parvathi and father Mr. Asappa. They are resident's of Deva Nagar Leprosy colony located in Dicuhpally of Nizamabad Dist of Andhra Pradesh. Suneetha's both the parents are affected by leprosy. They were cured of leprosy by taking MDT treatment with the help of "GRETNALTES" (a project of Swiss Emmaus Leprosy Relief Work India) in Tenali, Andhra Pradesh.

Ch.Suneetha, at GRETNALTES School

Suneetha's parents wanted to give good education to their daughter. They approached GRETNALTES an integrated school. GRETNALTES provides free education to children born to people affected by and integrates them in order to help reduce stigma. As a result, Suneetha was admitted in the school run by GRETNALTES. She was provided free education, free food, free uniform, free books, and most importantly the nurture and guidance. She was average in studies, but with the encouragement and help she received from her teachers, she started to perform well.

Enadu - Guntur - Friday 16th May, 2014, Ch.Suneetha who secured the highest 10/10 GPA stood first in the Durrigirala Mandal

In the month of March, 2014 she appeared for 10th class (S.S.C.) Public examination conducted by the Govt., of Andhra Pradesh state. She proved her merit in the examination by securing the highest grade of marks in the entire Duggirala mandal where GRETNALTES school is located. Coming from a Leprosy colony and born to leprosy affected parents, life was not easy for Suneetha. She had to face lots of challenges.

Thanks to donors like you and for your timely support Suneetha has found hope.

Suneetha is from a poor family. She dreams to become a Medical Doctor. Her aim is to render service to the downtrodden people in the society particularly the leprosy community.

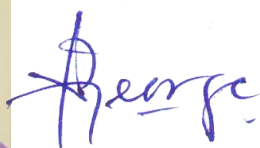

It gives me immense joy to see a smile on her face. Your valuable contributions have helped us to give hope to Suneetha on time.

However there are still many like Suneetha and her family who have no access to education nor care and treatment to their family members. We need your continuing support to carry forward our work. Please request your friends and family members to join us in this effort to serve those affected by leprosy.

Thank you so much for your kindness. Today we have the confidence that you are with us ...

Your contribution will change a child's life today. Please make this day meaningful and contribute now! Your timely donations will make a difference please!

With Regards,

John Kurian George

CEO

Swiss Emmaus Leprosy Relief Work India

P.S.: Every generous gesture made by you and your friends help children and families affected by leprosy live with respect and dignity.
